

Creative developer passionate about finding alternate ways to solve problems. I am a confident team member that finds razor sharp focus in a collaborative and dynamic work environment.

## Projects

**Bent Shaft Maps** *is a platform for mapping whitewater rivers.*

[React/Node.js/MongoDB/JWT/SASS/Heroku](#) | [Try it](#) | [See Code](#)

- Created a web framework for paddlers and kayakers to intuitively create and share techniques and routes for navigating whitewater rivers.
- Utilized JWT authentication for secure and persistent user log in.
- REST API allows user interaction with noSQL database.
- Hosted on a secure domain and follows Open Web Application Security Project (OWASP) design principles.

**ExoTask** *is a front-end task organizing interface.*

[React/SASS/Netlify](#) | [Try it](#) | [See Code](#)

- Designed with mobile-first principles to accommodate for any device type.
- Logical state management based on React principles.

**River Level Gauge** *built for tracking water level on remote whitewater rivers.*

[C++/JavaScript/Microcontroller](#) | [See Code](#)

- Programmed and built a device that remotely monitors volumetric river flow.
- Published documentation that allows the project to be recreated using inexpensive components.

## Work Experience

**Environmental Response Specialist**—Canadian Coast Guard

[Mount Pearl, Newfoundland](#) | [September 2019-January 2020](#)

- Responded to marine based oil spills using appropriate methods, techniques and safety standards.
- Created spill prediction models using ArcGIS from historic spill data in the Maritime and Atlantic regions.

**Clubs and Societies Commissioner**—Carleton University Students Association

[Ottawa, Ontario](#) | [September 2017-May 2019](#)

- Coordinated events, seminars and trainings for Carleton University's Clubs and Societies program.
- Continuously implemented programs, services and improvements based on feedback from student leaders.

**Tree Planter**—Timberwolf Planting, Folklore Contracting, Coast Range Contracting

[Canada and Australia](#) | [April 2014-August 2017](#)

**AutoCAD Draftsperson**—ProSlide Technologies

[Ottawa, Ontario](#) | [May 2011-April 2014](#)

- Used computer assisted design software to create 3D drawings, plans and proposals.
- Designed multiple slides that were accepted by clients and constructed.

## Technical Skills

### Languages

HTML, CSS, JavaScript

### Frameworks/Libraries

React, Node.js, Express, REST APIs, JWT Authentication, SASS, Bootstrap

### Database

MongoDB, Mongoose ODM

### Tools

Adobe Suite, Figma, Visual Studio Code, Git, ArcGIS, QGIS, AutoCad

## Education

Bachelor of Environmental Science  
Carleton University, Ottawa,  
Ontario

**Graduated:** Spring 2019

## Leadership

**Outdoors Club of Carleton University (President)**

Lead a variety of outdoor trips for university students in Ontario including canoeing, kayaking whitewater rafting, hiking and rock climbing.

## Hobbies

I enjoy anything and everything that gets me outdoors, notably bird watching and whitewater kayaking!
